

# WORKING WITH YOUR WOODS TO HELP WILDLIFE!

We are pleased to be offering another opportunity for up to twenty-five woodland owners to become RI Coverts Project Cooperators. We are now seeking applicants to participate in the 6th Annual Coverts Training Workshop.

The *RI Coverts Project* is a program designed to promote sound forest management practices that can make wildlife healthier, more diverse and abundant. Now in its 6<sup>th</sup> year, the project has trained 83 landowners from across the state through its two and one-half day workshop that focuses on forest ecology and stewardship, wildlife management and land conservation.

"Take the training - you will never think about wildlife the same again!"

**Date:** April 19-21, 2013  
**Location:** Whispering Pines Conference Center  
URI W. Alton Jones Campus, West Greenwich, RI
